

## ISO14001 environment system certificate

And 'our care:

- Ensure every effort in organizational, operational and technology to prevent pollution of waterways, air and soil.
- Minimize water consumption and waste production by monitoring critical parameters.
- Can be implemented as a policy aimed at saving energy, subject to the conditions of facilities provided by the hotel guests.
- Raise awareness among guests, employees, suppliers of goods and services on the contents of the Environmental Policy.
- Use, where possible, environmentally friendly products
